QA Tester Trainee / Software QA Apprentice

PROFESSIONAL SUMMARY

Software Quality Assurance Trainee with a solid foundation in Software Engineering and Foreign Trade. Hands-on experience in designing, executing, and documenting test cases for Web platforms and REST APIs in Agile (Scrum) environments. Proficient in leveraging Artificial Intelligence tools to accelerate the STLC cycle, UI/UX testing, and managing technical and commercial projects. Highly focused on analytical rigor, data accuracy, and process optimization.

TECHNICAL SKILLS

- Testing & QA: Test Cases (Manual & AI-Assisted), REST API Testing, Bug Reporting (Jira), STLC Cycle, UI/UX Testing, Functional Requirements, Advanced Excel.
- Tools & Technologies: Jira, Postman, Apidoc, DevTools, Figma, JavaScript, Python, SQL, JSON, Obsidian (Markdown), Meta Ads Manager, LLM Integration.
- Languages: Spanish (Native), English (Intermediate - B1).

TECHNICAL PROJECTS

REST API & Inventory Testing (Online Store) | TripleTen Bootcamp (2026)

- Designed and executed manual REST API tests for backend product management and inventory inspection.
- Verified data integrity in HTTP requests (POST/PUT/DELETE) using Postman and Apidoc, validating JSON responses.
- Documented and reported inventory discrepancies in Jira, attaching server logs for defect tracking. Impact: Successful validation of backend endpoints and prevention of data synchronization failures. Technologies: Postman, Apidoc, API REST, HTTP Endpoints, JSON, Jira.

Web & UI Functional Testing (UrbanRoutes) | TripleTen Bootcamp (2026)

- Performed E2E functional testing on the UrbanRoutes web platform, validating booking flows, fare calculations, and payment methods.
- Inspected web elements using DevTools, cross-referencing user interface behavior against Figma designs.
- Reported and managed usability and logic defects in Jira under Scrum methodology. Impact: Increased test coverage on critical user interaction flows. Technologies: Functional Testing, DevTools, Figma, Jira, Test Cases.

AI Agent Development & QA Management ("Noé") | Personal Project (2026)

- Designed and built an AI-assisted agent for requirement analysis and automated test case generation.
- Structured a knowledge management system in Obsidian (.md) to centralize bug patterns and execution reports. Impact: Generated over 60 structured test cases, significantly reducing STLC cycle execution times. Technologies: Prompt Engineering, Obsidian (Markdown), Requirements Analysis, Excel.

Taxi Dispatch & Monitoring Prototype | Personal Project (2026)

- Developed a web prototype for fleet dispatch management featuring real-time interactive mapping.

- Validated end-user experience (UX) and integrated business logic rules into system forms.
- Impact: Functional simulation of transport fleet management with optimized UI/UX design.
- Technologies: JavaScript, HTML/CSS, Interactive Mapping, Functional Testing.

PROFESSIONAL EXPERIENCE

Lagobo Distribuciones (Almacenes Oportunidades) | Commercial Advisor & Digital Ads | 02/2026 – Present

- Managed Meta Ads Manager campaigns to capture leads and optimize the sales funnel.
- Filtered and qualified commercial leads, boosting conversion rates for tech and credit requests.

Lagobo Distribuciones | Administrative Assistant & Warranties (Internship) | 07/2025 – 01/2026

- Scheduled warranty claims and customer service requests, reducing tracking inconsistencies.
- Audited physical inventory against internal database records to ensure data accuracy.

TUASA | Data Entry & First-Line Technical Support | 08/2023 – 02/2024

- Conducted high-volume data entry and validation for vehicle fleet operations with zero discrepancies.
- Provided first-line technical support for internal software, minimizing operational downtime.

El Ofertazo / Lo Máximo | Cashier & Sales Representative | 01/2018 – 12/2022

- Handled register operations, invoicing, and daily balance settlements with zero cash discrepancies.
- Executed physical inventory audits against system stock upon receiving shipments.

EDUCATION

- QA Engineer Bootcamp | TripleTen Bootcamp (04/2026 – Present)
- Foreign Trade Technician | SENA (Colombia) (01/2024 – 01/2026)
- B.S. in Software Engineering (Incomplete - 37 credits) | Universidad Técnica Nacional (2020 – 2022)

RELEVANT CERTIFICATIONS

- Complete Python Developer (+114 hrs) | Udemy (In Progress)
- Digital Advertising & Meta Ads Training | Continuing Education (2025)
- RETIQ & Basic Accounting, Costs and Budgets | SENA (2025 – 2026)
- Logical-Mathematical Reasoning (80 hrs) | SENA (2018)
- Conversational English Levels 1 & 2 | IDIOMAS.CR (2019)
